DETAILED ACTION

- This action is responsive to the following communication: an Amendment filed on 4/24/07.
- Claims 3-5 & 14-16 have been canceled; claims 1-2, 6-13, and 17-23 are allowed.

Allowable Subject Matter

- Claims 1-2, 6-13, and 17-23 are allowed; renumbered as claims 1-17.

The following is an examiner's statement of reasons for allowance: The combined cited prior arts (US 5621810 to Suzuki et al and US 5809366 to Yamakawa et al) of record teach an image forming apparatus for preventing copying of confidential documents, but the combined cited prior arts of record fail to teach and/or suggest "difficulty determinations means determines whether the determination by said specific-image determination means is difficult using a scan of the image at a first density and, if it is determined that the determination by said specific-image determination means is not difficult, said specific-image determination means performs a determination using a scan of the image at a second density higher than the first density and in combinations of other features" as cited in independent claims 1, 12, and 23 (renumbered as claims 1, 9, and 17 respectively). The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 1, 12, and 23 (renumbered as claims 1, 9, and 17 respectively).
